## SCHOLARSHIP APPLICATION

It is my desire to make therapy available regardless of financial status. I believe everyone should have the opportunity to build their marriage on a solid foundation. It is in your willingness to ask for assistance that God will move mountains.

My session fee is therefore based on a sliding scale ranging from the minimum of \$20 per session to a maximum of \$105 per session.

The scale is based on your combined gross income multiplied by .001 (i.e. \$40,000 x .001 = \$40 session, \$20,000 and below per year = \$20 session, etc.).

If you are applying for a Pre-Engagement/PreMarital Package Discount, the sliding scale applies to each session. The \$50 deposit is sent before the first session and is paid in addition to the session fees. It covers the cost of the online assessment and the one year anniversary session.

\*Hardship cases beyond the ability to meet the scholarship requirements are considered on a case by case basis.

Annual combined gross income \$ \_\_\_\_\_

Please briefly describe the financial circumstances for scholarship:
